Registro QSL dirette

Dalla carta al PC: gli anni '90

Log italiani

Fastlog di IOXGR, semplice e diffusissimo. 1992: **TOPLOG** di I4UFH, in uso fino al Y2K. **LOGVRR** di IN3VRR, sulla breccia per decenni.

Contest

SD di EI5DI, **CT** di K1EA, **TR Log** di N6TR (log ufficiale del WRTC 1996 a San Francisco).

Windows

Dal DOS a Windows: nascono **DX4WIN** e **DXBASE**, molti ancora oggi in uso.

1996

A Dayton WF1B e WN4AZY presentano l'**Amateur Data Interchange Format**: nasce l'**ADIF**, il linguaggio comune tra programmi.

Monte Capra

50 anni di radio sopra Bologna

Le origini: dalle VHF al primo EME (1974–1976)

- **Monte Capra, 444 m s.l.m.** sopra Casalecchio di Reno: una torretta degli anni '20 di Adriano Cavalieri Ducati, I1ACD
- **1974**: i primi QSO in 2 metri
- **19 novembre 1975**: con I4BER gli OM del Capra collaborano al **primo QSO EME dall'Italia** (SK6AB) dal radiotelescopio di Medicina
- **1976**: 16×21 el. F9FT a 432 MHz e attività nei trofei ARI UHF

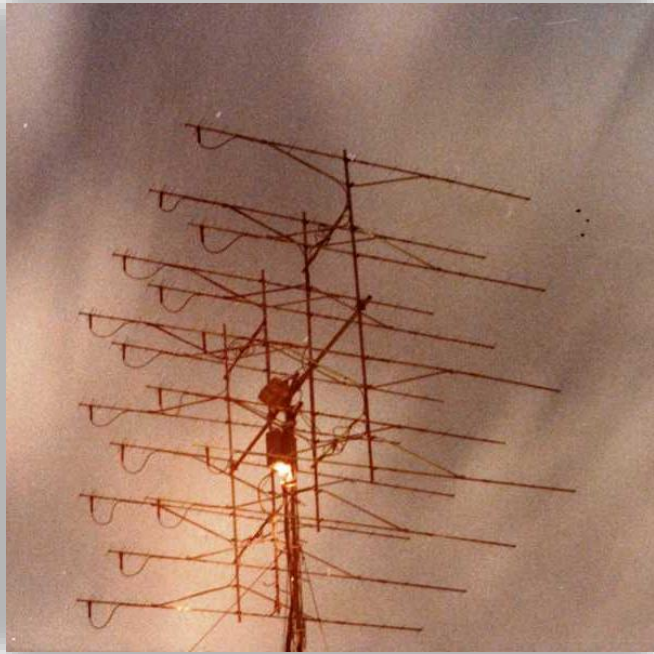

1975: le prime antenne, il vento e lo shack

- Prime antenne VHF sulla torretta, anche con griglie al posto del riflettore: ma il vento del Capra si fa sentire
- Manca tutto: acqua, luce, porte e finestre. I4YRW, I4VEQ e I4CHY operano a 1290 MHz

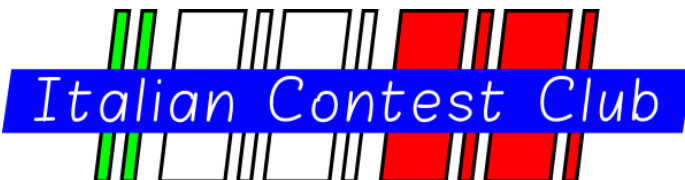

1976–1979: la stagione dei 432 MHz

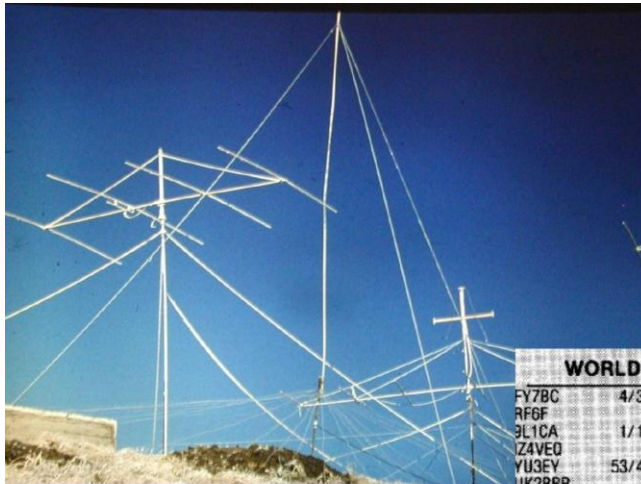

- Porte, finestre e un vecchio gruppo elettrogeno surplus; antenna 16×21 el. Tonna F9FT
- Trofei ARI UHF 1976 con I4YRW e I4RNL: arrivano i primi «new one»

Primi QSO in 432 MHz dall'Italia verso...

Ungheria	2/7/1978	HG1KVP/P – I4VEQ/4
Cecoslovacchia	6/5/1979	OK1UHF/P – I4FKD/4
Germania Est	6/7/1979	DM2DXN/P – IW4ADT/4

1978: IZ4VEQ, le prime prove in Multi-Single

HIGHEST EUROPEAN SCORE: 7,085,000 PTS. IN THE

Multi-Operator Single TX: nuovo record mondiale

Multi-Single

I4RYC from a mountaintop in central Italy put it all together and broke the World All-Time multi-operator single transmitter record with a score of 9.9M

points. They were closely followed by EI9CB, VP5WW, and GW6GW, all with scores over 8M. The multiplier search station makes this category very competitive, requiring skill and careful timing so as not to violate the 10-minute rule. In the U.S., KØUK, from another mountaintop in Colorado, utilized European and Japanese openings to maximize their winning score. K second

Multi-Op Categories

In a year with so much activity from everywhere it was not surprising to see so many high-scoring multi-single scores. The top four teams were from four different continents. The Italian team of IQ4A out-distanced the rest with an outstanding score of 17 M. Finishing second was 8P9X, a bunch of great ops who every year go on their "fishing trip" to catch the big one—the CQ WW. A joint Hungarian and Turkish team made everyone happy with YM5KA. Finishing second in Europe was the familiar club call of LZ9A.

Multi-Single

In the fiercely competitive Multi-Single category, the world winner was the team from the mountain overlooking Bologna. Operating from inside a narrow cave, they out-keyed the second-place team of NP4Z. Felipe's crew consisted of three guys. What a great job! The Europeans take their multi-single seriously, as
